PETITION UNDER 37 C.F.R. §1.103 FOR SUSPENSION OF ACTION

Sir:

Applicant hereby petitions under 37 C.F.R. §1.103(a) for suspension of action for a period of five (5) months. As noted in the accompanying remarks in the Amendment, the Applicant's present specification has been rejected on the grounds that it is contradicted by the second law of thermodynamics. In such circumstance, it would be valuable to conduct further experimentation and to collect data which might be crucial to forming a proper further response to the Office Action which might be dispositive of the pertinent issues. As already noted, the physical experiments should take until the end of the year and a suspension of action for a period of five (5) months should provide sufficient time for the Applicant to carry out testing and bring to the attention of the Patent Office additional pertinent information.

It is believed that the foregoing constitutes good and sufficient cause under Rule 1.103. There is no outstanding Office Action given that the Applicant has responded as by Amendment herein. The fee set forth in §1.17(h) is enclosed. Granting of the Petition of earnestly solicited

I hereby certify that this correspondence is being deposited with the United States Postal Service as First Class Mail in an envelope addressed to: Asst. Commissioner for Patents, Washington, D.C. 20231, on September 20, 2002
